FOR PROFESSIONAL SOCIETIES

Know who is in good standing today, without chasing anyone.

Communora360 gives your secretariat one register, renewals that members can complete themselves, and AGM elections members can trust. By EBITS Co. Limited.

SOUND FAMILIAR?

Renewals chased one by one

The secretariat calls and messages members on WhatsApp, and nobody can say quickly who has paid for this year.

Registration data is messy

Google Form exports arrive with duplicates, codes and phone numbers missing their leading 0.

Cards, certificates and AGM votes by hand

Membership cards, CPD certificates and elections take weeks of manual work, and are hard to verify.

What changes with Communora360

- **Standing at a glance**
  Dues & renewals shows who is paid up, due for renewal or lapsed, by category, with the amount still to collect.
- **Members renew themselves**
  A renewal page and the USSD menu show each member their own dues and let them pay by Mobile Money.
- **Clean records from day one**
  Upload Google Forms, ODK or KoBo exports as they are. Duplicates, codes and phone formats are cleaned on import.
- **Credentials anyone can check**
  Membership cards and CPD certificates carry a QR code that confirms validity, there and then.
- **A fairer AGM**
  Voting on the web and by USSD, the electorate set by your rules, and results sealed until released.

CPD points and certificates are records kept by your society. They do not mean accreditation by a professional regulator. Membership year: 1 January – 31 December. Features depend on your organisation's profile and the modules switched on. Illustrative screens use sample data.
